Edwards & West Inc. t/a Divspec, has been serving the industrial, commercial, manufacturing, institutional & construction trades with fastener products since 1980. We are now extremely proud to introduce you to our quality line of imported strut fittings & clamps. We are the sole United States representative for Flexistrut Pipe Support (Changshu) Co. Ltd. Flexistrut (Changshu) is an ISO Certified manufacturer & a division of Flexistrut Australia.

The fittings displayed in this catalog are a sampling of the products we have available. They are available in a variety of finishes including Zinc Plated Steel, Zinc Dichromate, Zinc Trivalent, 304 Stainless, 316 Stainless, Hot Dipped Galvanized & Powder Coat. Please contact your Divspec Sales Representative for price consideration, product samples and inquiries relative to other products. We offer several programs that can be customized to your specific needs. Direct container shipment & private labeling is also available.

Our prices are extremely competitive & our products are consistent with the quality you expect. If given the opportunity, we won't disappoint you.

Thank you for considering Divspec.

Our commitment to Quality is... “Stainless”

CUSHION CLAMPS

Cushion Features

- Reduces noise due to shock and vibration
- Eliminates metal to metal contact
- Usable temperatures from +275° F to -65° F
- Fast and easy installation
- Permits various fluid conductors to be mixed.
- Resists most fuels, oil, gases, solvents
- Manufactured from a thermoplastic elastomer material

Clamp Features

- Fits all standard 1-5/8 channel
- Features a unique shoulder stud which is securely fastened to one half of the clamp (available up to 1-3/8 clamp). This eliminates over-tightening and rotation.
- A nylon-insert nut assuring a positive lock
- Zinc Dichromate, also available in stainless
